Subject Index to Volume 18

ABDOMINAL, SONOGRAPHY

Abdominal ultrasonography: Improved image quality with the combined use of a diet and laxatives. Vogel et al. 627.

ACCELERATION TIME

Acceleration time in cerebral arteries of preterm and term infants. van de Bor et al. 167.

ACOUSTIC IMPEDANCE

Transvaginal imaging: Applied physical principles and terms. Thaler and Manor. 235.

ACUTE RENAL VEIN THROMBOSIS

Image-directed Doppler sonography of the intrarenal arteries in acute renal vein thrombosis. Parvey and Eisenberg. 512.

ADRENAL CORTEX

Changes in size and sonographic characteristics of the adrenal glands during the first year of life and the sonographic diagnosis of adrenal hyperplasia in infants with 21-hydroxylase deficiency. Menzel and Hauffa. 619.

ADRENAL GLAND, DISEASES

Changes in size and sonographic characteristics of the adrenal glands during the first year of life and the sonographic diagnosis of adrenal hyperplasia in infants with 21-hydroxylase deficiency. Menzel and Hauffa. 619.

ADRENAL HYPERPLASIA, CONGENITAL

Changes in size and sonographic characteristics of the adrenal glands during the first year of life and the sonographic diagnosis of adrenal hyperplasia in infants with 21-hydroxylase deficiency. Menzel and Hauffa. 619.

ANAPLASTIC CARCINOMA OF THE THYROID GLAND

Occult anaplastic thyroid carcinoma associated with marked hypercalcemia. Takashima et al. 438.

ANEMBRYONIC PREGNANCY

Doppler ultrasonographic evaluation of abnormal pregnancies in the first trimester. Stabile et al. 497.

ANGIOSARCOMA, OF THE SEMINAL VESICLE

Angiosarcoma of the seminal vesicle: Early detection using transrectal ultrasound-guided biopsy. Panageas et al. 666.

ANTHROPOMETRY

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

AORTIC DISSECTION

Spontaneous dynamic echoes in aortic dissection. Chow et al. 442.

AP-PELVIC

Definition of anatomical planes for use in transvaginal sonography. Dodson and Deter. 239.

APPENDICITIS

Unusual combination of an appendicolith in a leukemic patient with typhlitis—Ultrasound diagnosis, Rodgers and Seibert. 191.

ARTERIES, DOPPLER ULTRASOUND STUDIES

Color flow and image-directed Doppler ultrasound evaluation of iatrogenic arteriovenous fistulas in the groin. Roubidoux et al. 463.

ARTERIES, FEMORAL

Color flow and image-directed Doppler ultrasound evaluation of iatrogenic arteriovenous fistulas in the groin. Roubidoux et al. 463.

ASCENDING UTERINE ARTERY

Hemodynamic evaluation of the female pelvic vessels using a high-frequency transvaginal image-directed Doppler system. Thaler et al. 364.

ATHEROSCLEROSIS

Tissue characterization of atheromatous plaques: Correlation between ultrasound image and histological findings. Goes et al. 611.

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

BECKWITH–WIEDEMANN SYNDROME

Prenatal ultrasound diagnosis of Beckwith–Wiedemann syndrome. Shah and Metlay. 597.

BILE SLUDGE

Ultrasonographic difficulties and pitfalls in diagnosing primary carcinoma of the gallbladder. Kuo et al. 639.

BIRTH WEIGHT

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

BLOOD FLOW VELOCITY

Prediction of brain blood flow using pulsed Doppler ultrasonography in newborn lambs. Martin et al. 487.

Recording of blood flow velocity waveforms in the uteroplacental and umbilical circulation: Reproducibility study and comparison of pulsed and continuous wave Doppler ultrasonography. Gudmundsson et al. 97.

BRAIN BLOOD FLOW

Prediction of brain blood flow using pulsed Doppler ultrasonography in newborn lambs. Martin et al. 487.

CARDIAC METASTASIS

A right ventricular metastasis of a large cell cancer: A case of multiple cancer. Ohsaki et al. 39.

CAROTID ARTERIES

Tissue characterization of atheromatous plaques: Correlation between ultrasound image and histological findings. Goes et al. 611.

CAUDATE LOBE VEINS

Sonographic anatomy of the caudate lobe veins. Fanney et al. 27.

CAVUM SEPTI PELLUCIDI

Ultrasonography of fetal brain: Some remarks with respect to the interpretation of the "cavum septi pellucidi". Thors and Hoogland. 411.

CEREBRAL BLOOD FLOW

Acceleration time in cerebral arteries of preterm and term infants. van de Bor et al. 167.

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

CHILDREN, GASTROINTESTINAL TRACT

Ultrasound diagnosis of gastroesophageal reflux and hiatal hernia in infants and young children. Westra et al. 477.

CHILDREN

Normal volume of the thyroid gland in children. Ueda. 455.

CHOLECYSTITIS

Ultrasonographic difficulties and pitfalls in diagnosing primary carcinoma of the gallbladder. Kuo et al. 639.

CHOLELITHIASIS

Prenatal detection of gallstones. Abbitt and McIlhenny. 202.

CHORIONIC VILLUS SAMPLING

The role of transvaginal sonography in chorionic villi sampling. Popp and Ghirardini. 315.

CHOROID PLEXUS TUMORS

Choroid plexus tumors: Antenatal diagnosis and follow-up. Body et al. 575.

CIRRHOSIS

Ultrasonographic follow-up of liver cirrhosis. Zoli et al. 91.

COLONIC SONOGRAPHY

Sonographic features of colonic Crohn's disease: Comparison of in vivo and in vitro studies. Limberg. 161.

COLOR DOPPLER SONOGRAPHY

Color-coded image-directed Doppler sonography compared with digital subtraction angiography in the follow-up of percutaneous vascular endoprostheses. Vorwerk et al. 631.

Color Doppler sonography in acute epididymitis and orchitis. Ralls et al. 383.

Color Doppler sonography in testicular torsion. Jensen et al. 446.

Color flow and image-directed Doppler ultrasound evaluation of iatrogenic arteriovenous fistulas in the groin. Roubidoux et al. 463.

Transvaginal color Doppler imaging. Kurjak et al. 227.

COLOVESICAL FISTULA

Sonographic features of colovesical fistula. Chen et al. 589.

COMPLICATIONS

Major complications and deaths due to interventional ultrasonography: A review of 8000 cases. Nolsøe et al. 179.

COMPUTED TOMOGRAPHY

The contribution of sonography to the measurement of intra-abdominal fat. Armellini et al. 563.

CONGENITAL ANEURYSM

Two giant congenital aneurysms of the left anterior descending coronary artery with right ventricle fistula: Diagnosis based on two-dimensional echocardiography and magnetic resonance imaging. Zhang et al. 601.

CONGENITAL ANOMALIES

Transvaginal sonographic diagnosis of congenital anomalies between 9 weeks and 16 weeks, menstrual age. Rottem and Bronshtein. 307.

CONGENITAL HEART DISEASE

Sonographic screening for renal tract anomalies associated with congenital heart disease. Murugasu et al. 79.

CORPUS LUTEUM

Is the corpus luteum normal after ovulation induction? Lenz and Lindenberg. 155.

CROHN'S DISEASE

Sonographic features of colonic Crohn's disease: Comparison of in vivo and in vitro studies. Limberg. 161.

CYSTIC MASS

Percutaneous aspiration of the persistent cystic mass of pregnancy: An alternative to surgical removal. Worthen et al. 117.

DIAPHRAGM

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

DIET, LAXATIVES

Abdominal ultrasonography: Improved image quality with the combined use of a diet and laxatives. Vogel et al. 627.

DISCRIMINATORY ZONE

The discriminatory zone of β-gCG for vaginal probes. Peisner and Timor-Tritsch. 280.

DOPPLER ULTRASONOGRAPHY

Changes in fetal hemodynamics with terbutaline treatment and premature labor. Sharif et al. 85.

Comparison of dynamic image and pulsed Doppler ultrasonography for the diagnosis of intrauterine growth retardation. Ott. 3.

Doppler ultrasonographic evaluation of abnormal pregnancies in the first trimester. Stabile et al. 497.

Image-directed Doppler ultrasonography in the management of failing infrainguinal bypass grafts. Basile et al. 132.

Prediction of brain blood flow using pulsed Doppler ultrasonography in newborn lambs. Martin et al. 487.

Recording of blood flow velocity waveforms in the uteroplacental and umbilical circulation: Reproducibility study and comparison of pulsed and continuous wave Doppler ultrasonography. Gudmundsson et al. 97.

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

Transvaginal color Doppler imaging. Kurjak et al. 227.

DYNAMIC ECHOES

Spontaneous dynamic echoes in aortic dissection. Chow et al. 442.

EARLY DETERMINATION OF FETAL GENDER

Early determination of fetal sex using transvaginal sonography: Technique and pitfalls. Bronshtein et al. 302.

EARLY PREGNANCY

The value of endovaginal sonography and urinary human chorionic gonadotropin tests for differentiation between intrauterine and ectopic pregnancy. Enk et al. 73.

ECHOGRAPHY

How accurate is ultrasonography in monitoring IUD placement? Bonilla-Musoles et al. 395.

ECTOPIC PREGNANCY

Criteria for transvaginal sonographic diagnosis of ectopic pregnancy. Rottem et al. 274.

Doppler ultrasonographic evaluation of abnormal pregnancies in the first trimester. Stabile et al. 497.

Early detection of pathologic pregnancy by transvaginal sonography. Goldstein. 262.

The discriminatory zone of β-gCG for vaginal probes. Peisner and Timor-Tritsch. 280.

The value of endovaginal sonography and urinary human chorionic gonadotropin tests for differentiation between intrauterine and ectopic pregnancy. Enk et al. 73.

EMBRYOLOGY

Sonoembryology: An organ-oriented approach using a high-frequency vaginal probe. Timor-Tritsch et al. 286.

ENDOMETRIAL HYPERPLASIA

The uterus: A new look with transvaginal sonography. Lewit et al. 331.

Endometrial hyperplasia: Value of endometrial thickness in ultrasonographic diagnosis and clinical significance. Malpani et al. 173.

ENDOMETRIUM

Transvaginal scanning of the endometrium. Fleischer et al. 337.

ENDOSCOPIC SUBURETERIC INJECTION

The sting procedure and its complications: Sonographic evaluation. Giuliano et al. 415.

ENDOVAGINAL

The value of endovaginal sonography and urinary human chorionic gonadotropin tests for differentiation between intrauterine and ectopic pregnancy. Enk et al. 73.

EPIDIDYMAL SARCOIDOSIS

The ultrasonographic appearance of coexistent epididymal and testicular sarcoidosis. Burke et al. 522.

EPIDIDYMIS

Color Doppler sonography in acute epididymitis and orchitis. Ralls et al. 383.

ESOPHAGUS, REFLUX

Ultrasound diagnosis of gastroesophageal reflux and hiatal hernia in infants and young children. Westra et al. 477.

EXTRALOBAR LUNG SEQUESTRATION

Spontaneous resolution of isolated fetal ascites associated with extralobar lung sequestration. Meizner et al. 57.

FAT DISTRIBUTION

The contribution of sonography to the measurement of intra-abdominal fat. Armellini et al. 563.

FATTY LIVER

Focal hepatic fatty infiltration as a cause of pseudotumors: Ultrasonographic patterns and clinical differentiation. Wang et al. 401.

FETAL ATRIAL FIBRILLATION

Fetal atrial fibrillation: In utero detection with real-time directed M-mode echocardiography. Baldi et al. 185.

FETAL BRAIN

Ultrasonography of fetal brain: Some remarks with respect to the interpretation of the "cavum septi pellucidi". Thors and Hoogland. 411.

FETAL CIRCULATION

Fetal renal arterial blood velocity waveforms detected with color-flow mapping and pulsed Doppler flowmetry in intrauterine growth retardation. Maeda and Takeuchi. 527.

FETAL DIAGNOSIS, FIRST TRIMESTER

Transvaginal sonographic diagnosis of congenital anomalies between 9 weeks and 16 weeks, menstrual age. Rottem and Bronshtein. 307.

FETAL DIAGNOSIS, SECOND TRIMESTER

Transvaginal sonographic diagnosis of congenital anomalies between 9 weeks and 16 weeks, menstrual age. Rottem and Bronshtein. 307.

FETAL FEMUR

Sonographic measurement of the fetal femur: Factors affecting accuracy. Lessoway et al. 471.

FETAL GROWTH RETARDATION

Fetal growth retardation with abnormal blood flows and placental sonographic lesions. Jauniaux and Campbell. 210.

FETAL GROWTH

Comparison of dynamic image and pulsed Doppler ultrasonography for the diagnosis of intrauterine growth retardation. Ott. 3.

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

FETAL HEMODYNAMICS

Changes in fetal hemodynamics with terbutaline treatment and premature labor. Sharif et al. 85.

FETAL KIDNEY

Transvaginal sonographic measurement of fetal kidneys in the first trimester of pregnancy. Bronshtein et al. 299.

FETAL PLEURAL EFFUSION

Spontaneous resolution of fetal pleural effusion diagnosed during the second trimester. Lien et al. 54.

FETAL REDUCTION

First trimester selective reduction in multiple pregnancy guided by transvaginal sonography. Itskovitz et al. 323.

FETAL RENAL AGENESIS

Prenatal sonographic diagnosis of unilateral fetal renal agenesis. Sherer et al. 648.

FETAL SEX

Early determination of fetal sex using transvaginal sonography: Technique and pitfalls. Bronshtein et al. 302.

FETAL THORACENTESES

Fetal thoracentesis with unsuccessful outcome. Landy et al. 50.

FETAL WEIGHT, ESTIMATED

Effect of the pretest probability of intrauterine growth retardation on the predictiveness of sonographic estimated fetal weight in detecting IUGR: A clinical application of Bayes' theorem. Simon et al. 145.

Estimated fetal weight in the detection of the small-for-menstrual-age fetus. Dudley et al. 387.

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

FISTULA, ARTERIOVENOUS

Color flow and image-directed Doppler ultrasound evaluation of iatrogenic arteriovenous fistulas in the groin. Roubidoux et al. 463.

FLOW VELOCITY WAVEFORMS IN THE PELVIC VESSELS

Hemodynamic evaluation of the female pelvic vessels using a high-frequency transvaginal image-directed Doppler system. Thaler et al. 364.

FOLLICULAR ASPIRATION

Transvaginal ultrasonically guided follicular aspiration: A comparative study with laparoscopically guided follicular aspiration. Gonen et al. 257.

GALLBLADDER CARCINOMA

Ultrasonographic difficulties and pitfalls in diagnosing primary carcinoma of the gallbladder. Kuo et al. 639.

GALLBLADDER PERFORATION

Gallbladder perforation with intrahepatic abscess formation. Chen et al. 43.

GALLBLADDER WALL THICKENING

Gallbladder wall thickening in acute pyelonephritis. Talarico and Rubens. 653.

GASTROINTESTINAL TRACT, ULTRASOUND STUDIES

Ultrasound diagnosis of gastroesophageal reflux and hiatal hernia in infants and young children. Westra et al. 477.

GASTROSCHISIS

Early transvaginal sonographic diagnosis of gastroschisis. Kushnir et al. 194.

β-HCG

The discriminatory zone of β-gCG for vaginal probes. Peisner and Timor-Tritsch. 280.

GOITER

Normal volume of the thyroid gland in children. Ueda. 455.

GROWTH, INTRAUTERINE

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

GUIDANCE

Major complications and deaths due to interventional ultrasonography: A review of 8000 cases. Nolsøe et al. 179.

GYNECOLOGIC UROLOGY

Assessment of female urinary incontinence by introital sonography. Koelbl et al. 370.

HEMANGIOMA OF THE THIGH

Giant hemangioma of the thigh: Prenatal sonographic diagnosis. Suma et al. 421.

HEPATIC METASTASES

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

HEPATIC NEOPLASM

Focal hepatic fatty infiltration as a cause of pseudotumors: Ultrasonographic patterns and clinical differentiation. Wang et al. 401.

HEPATIC VEINS

Sonographic anatomy of the caudate lobe veins. Fanney et al. 27.

HERNIA, HIATAL

Ultrasound diagnosis of gastroesophageal reflux and hiatal hernia in infants and young children. Westra et al. 477.

HYDATIFORM MOLE

The uterus: A new look with transvaginal sonography. Lewit et al. 331.

HYPERCALCEMIA

Occult anaplastic thyroid carcinoma associated with marked hypercalcemia. Takashima et al. 438.

HYPERECHOGENICITY

Second trimester hyperechogenicity in the lower abdomen of two fetuses with trisomy 21: is there a correlation? Persutte. 425.

HYSTEROSCOPY

How accurate is ultrasonography in monitoring IUD placement? Bonilla-Musoles et al. 395.

IMAGE-DIRECTED DOPPLER SONOGRAPHY

Image-directed doppler sonography of the intrarenal arteries in acute renal vein thrombosis. Parvey and Eisenberg. 512.

IMAGES, QUALITY

Abdominal ultrasonography: Improved image quality with the combined use of a diet and laxatives. Vogel et al. 627.

IN VITRO FERTILIZATION

Is the corpus luteum normal after ovulation induction? Lenz and Lindenberg. 155.

Transvaginal ultrasonically guided follicular aspiration: A comparative study with laparoscopically guided follicular aspiration. Gonen et al. 257.

INFARCTION

Sonographic diagnosis of splenic torsion in a spleen situated in the left upper quadrant. Kinare et al. 586.

INFERIOR VENA CAVA

Sonographic diagnosis of transposition of the inferior vena cava. Gollub et al. 502.

INFERTILITY

Transvaginal ultrasonography in the diagnosis and treatment of infertility. Itskovitz et al. 248.

INFRAINGUINAL BYPASS GRAFTS

Image-directed Doppler ultrasonography in the management of failing infrainguinal bypass grafts. Basile et al. 132.

INTRA-ABDOMINAL FAT

The contribution of sonography to the measurement of intra-abdominal fat. Armellini et al. 563.

INTRA-ABDOMINAL LESIONS

Second trimester hyperechogenicity in the lower abdomen of two fetuses with trisomy 21: is There a Correlation? Persutte. 425.

INTRACRANIAL ATHEROSCLEROSIS

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

INTRAOPERATIVE ULTRASONOGRAPHY

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

INTRAUTERINE DEVICE (IUD)

How accurate is ultrasonography in monitoring IUD placement? Bonilla-Musoles et al. 395.

INTRAUTERINE GROWTH RETARDATION

Comparison of dynamic image and pulsed Doppler ultrasonography for the diagnosis of intrauterine growth retardation. Ott. 3.

Estimated fetal weight in the detection of the small-for-menstrual-age fetus. Dudley et al. 387.

Fetal renal arterial blood velocity waveforms detected with color-flow mapping and pulsed Doppler flowmetry in intrauterine growth retardation. Maeda and Takeuchi. 527.

INTRAVAGINAL ULTRASONOGRAPHY

Ovarian varicocele: Ultrasonic and phlebographic evaluation. Giacchetto et al. 551.

INTROITAL SONOGRAPHY

Assessment of female urinary incontinence by introital sonography. Koelbl et al. 370.

TOXOCARA CATI

Demonstration of hepatic granuloma due to visceral larva migrans by ultrasonography. Hirata et al. 429.

IUGR

Effect of the pretest probability of intrauterine growth retardation on the predictiveness of sonographic estimated fetal weight in detecting IUGR: A clinical application of Bayes' theorem. Simon et al. 145.

JUGULAR VEINS

Sonographic anatomy of the caudate lobe veins. Fanney et al. 27.

KAPOSI SARCOMA

Ultrasonography of nodular and infiltrative lesions of the skin and subcutaneous tissues. Nessi et al. 103.

KIDNEY

Transvaginal sonographic measurement of fetal kidneys in the first trimester of pregnancy. Bronshtein et al. 299.

LAPAROSCOPY

Transvaginal ultrasonically guided follicular aspiration: A comparative study with laparoscopically guided follicular aspiration. Gonen et al. 257.

LEIOMYOMA

Sonographic findings of leiomyoma in the seminal vesicle. Bahn et al. 517.

LIMB–BODY–WALL COMPLEX (LBWC)

Limb–body–wall complex: Another cause for elevated maternal serum alpha fetoprotein. Gorczyca et al. 198.

LIVER

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

Ultrasonographic follow-up of liver cirrhosis. Zoli et al. 91.

LUNG

Spontaneous resolution of isolated fetal ascites associated with extralobar lung sequestration. Meizner et al. 57.

MAGNETIC RESONANCE IMAGING

Two giant congenital aneurysms of the left anterior descending coronary artery with right ventricle fistula: Diagnosis based on two-dimensional echocardiography and magnetic resonance imaging. Zhang et al. 601.

MALIGNANT LYMPHOMA

Sonographic patterns of the affected spleen in malignant lymphoma. Goerg et al. 569.

MEASUREMENT ACCURACY

Sonographic measurement of the fetal femur: Factors affecting accuracy. Lessoway et al. 471.

MENOPAUSE

Transvaginal sonography in postmenopausal women. Schoenfeld et al. 350.

MENSTRUAL CYCLE DISORDERS

Ovarian varicocele: Ultrasonic and phlebographic evaluation. Giacchetto et al. 551.

MISSED ABORTION

Doppler ultrasonographic evaluation of abnormal pregnancies in the first trimester. Stabile et al. 497.

MITRAL VALVE LEAK

Detection of prosthetic mitral valve leak: A comparative study using transesophageal echocardiography, Transthoracic Echocardiography, and Auscultation. Chen et al. 557.

M-MODE ECHOCARDIOGRAPHY

Fetal atrial fibrillation: In utero detection with real-time directed M-mode echocardiography. Baldi et al. 185.

MULTIPLE PREGNANCY

First trimester selective reduction in multiple pregnancy guided by transvaginal sonography. Itskovitz et al. 323.

NEEDLE BIOPSY

Major complications and deaths due to interventional ultrasonography: A review of 8000 cases. Nolsøe et al. 179.

NEONATAL SKINFOLDS

Evaluation methods for intrauterine growth using neonatal fat stores instead of birth weight as outcome measures: Fetal and neonatal measurements correlated with neonatal skinfold thicknesses. Sumners et al. 9.

NEONATES

Acceleration time in cerebral arteries of preterm and term infants. van de Bor et al. 167.

NERVE TUMORS

Tibialis posterior nerve Schwannoma mimicking Achilles tendinitis: Ultrasonographic diagnosis. Cantos-Melian et al. 671.

NEUROFIBROMA

Sonographic features of a renal pelvic neurofibroma. Le Cheong et al. 129.

NEWBORN LAMB

Prediction of brain blood flow using pulsed Doppler ultrasonography in newborn lambs. Martin et al. 487.

OAT CELL METASTASIS

Imaging of an oat cell metastasis to the testicle: Case report and review of the literature. Kravitz and Ridlen. 121.

OMPHALOCELE

Echographic diagnosis of omphalocele in the first trimester of pregnancy. Pagliano et al. 658.

OROMANDIBULAR LIMB HYPOGENESIS SYNDROME

Prenatal sonographic appearance and subsequent management of a fetus with oromandibular limb hypogenesis syndrome associated with pulmonary hypoplasia. Shechter et al. 661.

OSTEOCHONDROMA

Popliteal vein thrombosis and popliteal artery compression complicating fibular osteochondroma: Ultrasound diagnosis. Longo et al. 507.

OVARIAN ARTERY

Hemodynamic evaluation of the female pelvic vessels using a high-frequency transvaginal image-directed Doppler system. Thaler et al. 364.

OVARIAN LESIONS

Classification of ovarian lesions by high-frequency transvaginal sonography. Rottem et al. 359.

OVARIAN PHLEBOGRAPHY

Ovarian varicocele: Ultrasonic and phlebographic evaluation. Giacchetto et al. 551.

OVARIAN TUMORS

Classification of ovarian lesions by high-frequency transvaginal sonography. Rottem et al. 359.

OVARIAN VARICOCELE

Ovarian varicocele: Ultrasonic and phlebographic evaluation. Giacchetto et al. 551.

PEDIATRICS

Normal volume of the thyroid gland in children. Ueda. 455.

PELVIC PAIN

Ovarian varicocele: Ultrasonic and phlebographic evaluation. Giacchetto et al. 551.

PERCUTANEOUS ASPIRATION

Percutaneous aspiration of the persistent cystic mass of pregnancy: An alternative to surgical removal. Worthen et al. 117.

PLACENTA PREVIA

Placenta previa—Is the traditional diagnostic approach satisfactory? Farine et al. 328.

PNEUMATOSIS INTESTINALIS

Sonographic features of pneumatosis of the small bowel. Vijayaraghavan. 579.

POPLITEAL ARTERY ENTRAPMENT

Popliteal vein thrombosis and popliteal artery compression complicating fibular osteochondroma: Ultrasound diagnosis. Longo et al. 507.

POPLITEAL VENOUS THROMBOSIS

Popliteal vein thrombosis and popliteal artery compression complicating fibular osteochondroma: Ultrasound diagnosis. Longo et al. 507.

PORTAL VEIN, ULTRASOUND STUDIES

Color Doppler sonography of portocaval shunts. Ralls et al. 379.

PORTOCAVAL SHUNTS

Color Doppler sonography of portocaval shunts. Ralls et al. 379.

POSTMENOPAUSE

Transvaginal sonography in postmenopausal women. Schoenfeld et al. 350.

"PULSELESS DISEASE"

"Pulseless" transcranial Doppler findings in Takayasu's arteritis. Ameriso et al. 592.

PREGNANCY, NORMAL

Early detection of pathologic pregnancy by transvaginal sonography. Goldstein. 262.

PREGNANCY, PATHOLOGIC

Early detection of pathologic pregnancy by transvaginal sonography. Goldstein. 262.

PREMATURE LABOR

Changes in fetal hemodynamics with terbutaline treatment and premature labor. Sharif et al. 85.

PRENATAL DIAGNOSIS

Prenatal diagnosis of eventration of the diaphragm. Thiagarajah et al. 46.

Prenatal ultrasound diagnosis of Beckwith–Wiedemann syndrome. Shah and Metlay. 597.

PREOPERATIVE DIAGNOSIS

Transvaginal sonographic diagnosis of an unruptured interstitial pregnancy. Sherer et al. 582.

PROSTHETIC VALVE LEAK

Detection of prosthetic mitral valve leak: A comparative study using transesophageal echocardiography, Transthoracic Echocardiography, and Auscultation. Chen et al. 557.

PRUNE BELLY SYNDROME (PBS)

Antenatal diagnosis of megalourethra in a fetus with the prune belly syndrome. Fisk et al. 124.

PULMONARY HYPOPLASIA

Prenatal sonographic appearance and subsequent management of a fetus with oromandibular limb hypogenesis syndrome associated with pulmonary hypoplasia. Shechter et al. 661.

PULSATILITY INDEX

Prediction of brain blood flow using pulsed Doppler ultrasonography in newborn lambs. Martin et al. 487.

PYELONEPHRITIS

Gallbladder wall thickening in acute pyelonephritis. Talarico and Rubens. 653.

RENAL AGENESIS

Prenatal sonographic diagnosis of unilateral fetal renal agenesis. Sherer et al. 648.

RENAL TRACT ABNORMALITIES

Sonographic screening for renal tract anomalies associated with congenital heart disease. Murugasu et al. 79.

RENAL VEIN ENLARGEMENT

Image-directed doppler sonography of the intrarenal arteries in acute renal vein thrombosis. Parvey and Eisenberg. 512.

RETROPUBIC HEMATOMA

Sonographic appearance of postpartum retropubic hematoma. Al-Naib. 520.

RISKS OF IUGR, BAYES' THEOREM APPLICATION IN IUGR

Effect of the pretest probability of intrauterine growth retardation on the predictiveness of sonographic estimated fetal weight in detecting IUGR: A clinical application of Bayes' theorem. Simon et al. 145.

SARCOIDOSIS

The ultrasonographic appearance of coexistent epididymal and testicular sarcoidosis. Burke et al. 522.

SCHWANN'S SHEATH

Tibialis posterior nerve Schwannoma mimicking Achilles tendinitis: Ultrasonographic diagnosis. Cantos-Melian et al. 671.

SEMINAL VESICLES

Angiosarcoma of the seminal vesicle: Early detection using transrectal ultrasound-guided biopsy. Panageas et al. 666.

Sonographic findings of leiomyoma in the seminal vesicle. Bahn et al. 517.

SKELETAL MALFORMATIONS

Prenatal sonographic appearance and subsequent management of a fetus with oromandibular limb hypogenesis syndrome associated with pulmonary hypoplasia. Shechter et al. 661.

SKIN

Ultrasonography of nodular and infiltrative lesions of the skin and subcutaneous tissues. Nessi et al. 103.

SMALL BOWEL

Sonographic features of pneumatosis of the small bowel. Vijayaraghavan. 579.

SONOEMBRYOLOGY

Sonoembryology: An organ-oriented approach using a high-frequency vaginal probe. Timor-Tritsch et al. 286.

SONOGRAPHIC CLASSIFICATION

Classification of ovarian lesions by high-frequency transvaginal sonography. Rottem et al. 359.

SPLANCHNIC VEINS

Ultrasonographic follow-up of liver cirrhosis. Zoli et al. 91.

SPLEEN INVOLVEMENT

Sonographic patterns of the affected spleen in malignant lymphoma. Goerg et al. 569.

SPLEEN

Torsion of a wandering spleen: Ultrasonographic findings. Bollinger and Lorentzen. 510.

SPLENIC ABSCESS

Tuberculous splenic abscess: Sonographic detection and follow-up. Wu et al. 205.

SPLENIC TORSION

Sonographic diagnosis of splenic torsion in a spleen situated in the left upper quadrant. Kinare et al. 586.

STENT

Color-coded image-directed Doppler sonography compared with digital subtraction angiography in the follow-up of percutaneous vascular endoprostheses. Vorwerk et al. 631.

STIMULATION FOR IN VITRO FERTILIZATION

Is the corpus luteum normal after ovulation induction? Lenz and Lindenberg. 155.

STING PROCEDURE

The sting procedure and Its iomplications: Sonographic evaluation. Giuliano et al. 415.

STOMACH, REFLUX

Ultrasound diagnosis of gastroesophageal reflux and hiatal hernia in infants and young children. Westra et al. 477.

SURGERY

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

TAKAYASU'S ARTERITIS

"Pulseless" transcranial Doppler findings in Takayasu's arteritis. Ameriso et al. 592.

TEFLON

The sting procedure and its complications: Sonographic evaluation. Giuliano et al. 415.

TERBUTALINE

Changes in fetal hemodynamics with terbutaline treatment and premature labor. Sharif et al. 85.

TESTICULAR AND EPIDIDYMAL SARCOID

The ultrasonographic appearance of coexistent epididymal and testicular sarcoidosis. Burke et al. 522.

TESTICULAR TORSION

Color Doppler sonography in testicular torsion. Jensen et al. 446.

TESTIS, EPIDERMOID CYST

Sonographic appearance of epidermoid cyst of the testis. Maxwell and Mamtora. 188.

TESTIS

Color Doppler sonography in acute epididymitis and orchitis. Ralls et al. 383.

THORACIC CAVITY

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

THYROID GLAND

Normal volume of the thyroid gland in children. Ueda. 455.

Occult anaplastic thyroid carcinoma associated with marked hypercalcemia, Takashima et al. 438.

THYROIDITIS, SUBACUTE

Sonography of subacute thyroiditis: Changes in the findings during the course of the disease. Tokuda et al. 21.

TIBIALIS POSTERIOR NERVE SCHWANNOMA

Tibialis posterior nerve Schwannoma mimicking Achilles tendinitis: Ultrasonographic diagnosis. Cantos-Melian et al. 671.

TISSUE CHARACTERIZATION

Tissue characterization of atheromatous plaques: Correlation between ultrasound image and histological findings. Goes et al. 611.

TRANSABDOMINAL SONOGRAPHY

Placenta previa—Is the traditional diagnostic approach satisfactory? Farine et al. 328.

TRANSCRANIAL COLOR FLOW MAPPING

Peripheral cerebral arteriovenous malformation in an infant: Assessment by transcranial color flow mapping. Vaksmann et al. 215.

TRANSCRANIAL DOPPLER ULTRASONOGRAPHY

"Pulseless" transcranial Doppler findings in Takayasu's arteritis. Ameriso et al. 592.

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

TRANSDIAPHRAGMATIC SCANNING

Transdiaphragmatic liver scanning: A new intraoperative imaging technique for examination of the liver from the thoracic cavity. Machi et al. 31.

TRANSDUCER PROBE

Transvaginal imaging: Applied physical principles and terms. Thaler and Manor. 235.

TRANSESOPHAGEAL ECHOCARDIOGRAPHY

Detection of prosthetic mitral valve leak: A comparative study using transesophageal echocardiography, Transthoracic Echocardiography, and Auscultation. Chen et al. 557.

TRANS-PELVIC SONOGRAPHY

Definition of anatomical planes for use in transvaginal sonography. Dodson and Deter. 239.

TRANSRECTAL ULTRASOUND

Angiosarcoma of the seminal vesicle: Early detection using transrectal ultrasound-guided biopsy. Panageas et al. 666.

TRANSTHORACIC ECHOCARDIOGRAPHY

Detection of prosthetic mitral valve leak: A comparative study using transesophageal echocardiography, Transthoracic Echocardiography, and Auscultation. Chen et al. 557.

TRANSVAGINAL DOPPLER DUPLEX SYSTEM

Hemodynamic evaluation of the female pelvic vessels using a high-frequency transvaginal image-directed Doppler system. Thaler et al. 364.

TRANSVAGINAL ULTRASONOGRAPHY

Classification of ovarian lesions by high-frequency transvaginal sonography. Rottem et al. 359.

Criteria for transvaginal sonographic diagnosis of ectopic pregnancy. Rottem et al. 274.

Definition of anatomical planes for use in transvaginal sonography. Dodson and Deter. 239.

Early determination of fetal sex using transvaginal sonography: Technique and pitfalls. Bronshtein et al. 302.

First trimester selective reduction in multiple pregnancy guided by transvaginal sonography. Itskovitz et al. 323.

Placenta previa—Is the traditional diagnostic approach satisfactory? Farine et al. 328.

Sonoembryology: An organ-oriented approach using a high-frequency vaginal probe. Timor-Tritsch et al. 286.

The discriminatory zone of β-gCG for vaginal probes. Peisner and Timor-Tritsch. 280.

The role of transvaginal sonography in chorionic villi sampling. Popp and Ghirardini. 315.

The uterus: A new look with transvaginal sonography. Lewit et al. 331.

Transvaginal color Doppler imaging. Kurjak et al. 227.

Transvaginal imaging: Applied physical principles and terms. Thaler and Manor. 235.

Transvaginal scanning of the endometrium. Fleischer et al. 337.

Transvaginal sonographic diagnosis of an unruptured interstitial pregnancy. Sherer et al. 582.

Transvaginal sonographic diagnosis of congenital anomalies between 9 weeks and 16 weeks, menstrual age. Rottem and Bronshtein. 307.

Transvaginal sonographic measurement of fetal kidneys in the first trimester of pregnancy. Bronshtein et al. 299.

Transvaginal sonographic technique: Targeted organ scanning without resorting to "planes". Rottem et al. 243.

Transvaginal sonography in postmenopausal women. Schoenfeld et al. 350.

Transvaginal ultrasonically guided follicular aspiration: A comparative study with laparoscopically guided follicular aspiration. Gonen et al. 257.

Transvaginal ultrasonography in the diagnosis and treatment of infertility. Itskovitz et al. 248.

TWO-DIMENSIONAL ECHOCARDIOGRAPHY

Two giant congenital aneurysms of the left anterior descending coronary artery with right ventricle fistula: Diagnosis based on two-dimensional echocardiography and magnetic resonance imaging. Zhang et al. 601.

TYPHLITIS

Unusual combination of an appendicolith in a leukemic patient with typhlitis—Ultrasound diagnosis, Rodgers and Seibert. 191.

ULTRASONOGRAPHY, METHODS

Transvaginal sonographic technique: Targeted organ scanning without resorting to "planes". Rottem et al. 243.

ULTRASONOGRAPHY, SAFETY

Transvaginal sonographic technique: Targeted organ scanning without resorting to "planes". Rottem et al. 243.

ULTRASONOGRAPHY

Focal hepatic fatty infiltration as a cause of pseudotumors: Ultrasonographic patterns and clinical differentiation. Wang et al. 401.

ULTRASONOGRAPHY

Sonographic diagnosis of tenosynovitis of the posterior tibial tendon. Stephenson et al. 114.

ULTRASONOGRAPHY

Transvaginal ultrasound diagnosis and treatment follow-up of invasive gestational trophoblastic disease. Schneider et al. 110.

ULTRASONOGRAPHY

Ultrasonographic follow-up of liver cirrhosis. Zoli et al. 91.

ULTRASOUND, ADRENAL GLAND, NEWBORNS AND INFANTS

Changes in size and sonographic characteristics of the adrenal glands during the first year of life and the sonographic diagnosis of adrenal hyperplasia in infants with 21-hydroxylase deficiency. Menzel and Hauffa. 619.

ULTRASOUND, COLOR DOPPLER

Color Doppler sonography of portocaval shunts. Ralls et al. 379.

ULTRASOUND, DOPPLER STUDIES

Color Doppler sonography of portocaval shunts. Ralls et al. 379.

ULTRASOUND, DYNAMIC IMAGE

Comparison of dynamic image and pulsed Doppler ultrasonography for the diagnosis of intrauterine growth retardation. Ott. 3.

ULTRASOUND MEASUREMENTS

Sonographic measurement of the fetal femur: Factors affecting accuracy. Lessoway et al. 471.

ULTRASOUND OF ENDOMETRIAL HYPERPLASIA

Endometrial hyperplasia: Value of endometrial thickness in ultrasonographic diagnosis and clinical significance. Malpani et al. 173.

UMBILICAL CIRCULATION

Recording of blood flow velocity waveforms in the uteroplacental and umbilical circulation: Reproducibility study and comparison of pulsed and continuous wave Doppler ultrasonography. Gudmundsson et al. 97.

UNRUPTURED INTERSTITIAL PREGNANCY

Transvaginal sonographic diagnosis of an unruptured interstitial pregnancy. Sherer et al. 582.

URACHAL CYST

The sonographic diagnosis of urachal cysts in utero. Hill et al. 434.

URINARY INCONTINENCE

Assessment of female urinary incontinence by introital sonography. Koelbl et al. 370.

URINARY TRACT, FETAL

Prenatal sonographic diagnosis of unilateral fetal renal agenesis. Sherer et al. 648.

UTEROPLACENTAL CIRCULATION

Recording of blood flow velocity waveforms in the uteroplacental and umbilical circulation: Reproducibility study and comparison of pulsed and continuous wave Doppler ultrasonography. Gudmundsson et al. 97.

UTERUS, NONGRAVID

Ultrasound of the normal nongravid uterus: Correlation with gross and histopathology. Platt et al. 15.

UTERUS

The uterus: A new look with transvaginal sonography. Lewit et al. 331.

Ultrasound of the normal nongravid uterus: Correlation with gross and histopathology. Platt et al. 15.

VAGINAL BIMANUAL EXAMINATION

Transvaginal sonographic technique: Targeted organ scanning without resorting to "planes". Rottem et al. 243.

VAGINAL PROBES

The discriminatory zone of β-gCG for vaginal probes. Peisner and Timor-Tritsch. 280.

VAGINAL SONOGRAPHY, PRINCIPLES

Transvaginal imaging: Applied physical principles and terms. Thaler and Manor. 235.

VAGINAL ULTRASONOGRAPHY

Early detection of pathologic pregnancy by transvaginal sonography. Goldstein. 262.

VASCULAR ENDOPROSTHESIS

Color-coded image-directed Doppler sonography compared with digital subtraction angiography in the follow-up of percutaneous vascular endoprostheses. Vorwerk et al. 631.

VERTEBROBASILAR SYSTEM

Transcranial Doppler ultrasonography versus arteriography for assessment of the vertebrobasilar circulation. Mull et al. 539.

VESICOVAGINAL FISTULA

Vesicovaginal fistula: Ultrasound delineation and pathological correlation. Carrington and Johnson. 674.

VISCERAL LARVA MIGRANS

Demonstration of hepatic granuloma due to visceral larva migrans by ultrasonography. Hirata et al. 429.

WANDERING SPLEEN

Torsion of a wandering spleen: Ultrasonographic findings. Bollinger and Lorentzen. 510.
